The following is an examiner's statement of reasons for allowance: None of the prior art of record, alone or in combination, teaches a refillable and repressurizable container for containing and dispensing a dispensable material comprising a fill valve coupled in said container, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Drawings***

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the numbers, lines and letters throughout the Figures are not uniform in nature. Applicant is advised to employ the services of a competent patent draftsperson outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.
